VERTESSA Slates

A natural looking slate with all the benefits of fibre cement

The Vertessa slates, with their smooth finish and square cut edges offer an elegant and neat finish for your roof. Vertessa slates are available in an attractive blue-black colour and have a thickness of 4 mm (nominal: 4.1 mm).

The front and the sides of the slates are finished with a multi layer acrylic based coating highly counteracting the growth of moss. The underside of the slates is treated with a one layer coating and a colourless water-repellent resinous layer.

Vertessa slates conform to the strongest class, class B, in accordance with the European Norm EN 492. The SVK Vertessa being the market leader in its strength, durability and appearance makes it the best choice for a wide range of residential and commercial projects.

They have a 30 year structural guarantee and a 10 year colour guarantee!
