Bullnose? Scallop? Beavertail? Our '**Biber**' tiles are based on the classic circular shaped clay tiles reflecting one of the oldest styles of roofing. Whether used as an ornamental tile to highlight a smaller roof area or across a full roofscape these tiles look stunning.

Crest '**Biber**' tiles offer a wide scope in the design of traditional and contemporary builds. Manufactured by Nelskamp from high quality Westerwald clay, these tiles exceed European standards for water-proofing and breathability, they also have a low water absorption of below 3% and their extreme resistance to frost ensures the long life of these superb quality tiles.

The **Biber** 18/38 is yet another example from our clay tile portfolio that are proving to be an inspired choice when used with both modern and traditional styles of architecture as well as in renovation works.

The **Biber** tile is currently available in these colours

Biber in Natural Red (201)

Biber in Heritage Black (203)

## The Biber fittings, ridges and special tiles
