WELCOME TO THE WORLD OF
CREST LINEA...OUR PORTFOLIO
OF STYLISH AND ELEGANT LONG
FORMAT STYLE BRICKS.

THE LENGTHS WE GO TO

Linea is an exclusive range of bricks that brings something very different to a project. Our stunning collection is now available in a variety of colours and finishes.

These beautiful long format bricks are just one example of the kind of 'special architectural design' bricks that we supply. If you require something a little different we can provide the ideas and the solution.

A NEW LINE IN ARCHITECTURE

The longer, thinner brick creates a dramatic and elongated effect which accentuates the linearity of the facade.

From over 30
brick styles to

CREST LINEA AQUATERRA SERIES

Aquaterra, the name of the series, is derived from the basic materials water - aqua and earth or clay - é terra. By adding water, the clay can be shaped and is given its characteristic surface by a smooth mixture of water and clay.
