Ceramic products Masonry brick

Statement from SKG-IKOB

This product certificate was issued on the basis of BRL 52230 Ceramic products dated 22-04-2015 in accordance with the current Regulations for Attestation, Certification and Inspection of SKG-IKOB.

SKG-IKOB declares that:

- There is legitimate confidence that the ceramic products supplied by the certificate holder meet the environmental hygiene specifications laid down in this product certificate upon delivery, provided that the products bear the NL BSB® mark in the manner indicated in this product certificate.
- for this product certificate, no inspection takes place on the use in works and on the reporting and/or information obligation of the user to the competent authority.
- taking into account the above, the ceramic products in their applications meet the requirements of the Soil Quality Decree.

For the Soil Quality Decree, this is a certificate recognized by the Minister of Infrastructure and the Environment, if the certificate is included in the "Overview of recognized quality declarations in construction" on the websites of SBK: www.bouwcultuur.nl and Bodem+: www.bottomplus.nl.

For SKG-IKOB

A handwritten signature in blue ink, consisting of a stylized 'H' and 'A' followed by a horizontal line.

ir. H.A.J. van Dartel
Certificate manager

Users of this quality declaration are advised to check at www.skgikob.nl whether this document is still valid. Check whether there is a quality declaration recognized by the Ministry of Infrastructure and the Environment.

This quality declaration consists of 2 pages.

NL BSB® Product Certificate

Eurobrick BV - Brick Factory Linssen
BV Number: IKB1990/16

page 2 of 2

1. ENVIRONMENTAL HYGIENE SPECIFICATIONS

1.1 SUBJECT MATTER AND SCOPE

This product certificate relates to the ceramic products manufactured by the certificate holder and the associated environmental hygiene properties that can be applied in buildings, in or on the soil and/or in a surface water body.

1.2 TO NOTICE

The delivery note is marked with the following NL BSB® word mark or NL BSB® logo and the certificate number:

NL BSB®

(word mark)

(beeldmerk)

Certificate
Nr. IKB1990

BSB_certificate_Eurobrick-Steenfabriek-Linssen-IKB1990-d.d.-28-02-2016.pdf

- name of certificate holder and production location;
- the product name, quantity delivered and delivery date;
- the indication: designed building material;
- the application: in structures, in or on the soil, in or on the bottom or bank of a surface body.

If reasonably possible, the NL BSB® mark and the certificate number will be applied to the product or product packaging.

COMPOSITION VALUES AND EMISSIONS

- 1.3 The average composition values determined in accordance with AP04-SG and the average emission determined in accordance with AP04-U comply with Appendix A of the Soil Quality Regulation for the intended area of application.

CONDITIONS OF APPLICATION

- 1.4 The ceramic products should be used:

- in accordance with the application as indicated on the delivery note;
- in accordance with Articles 5, 6, 7 and 33 of the Soil Quality Decree (functionality, duty of care and retrievability).

2. TIPS FOR THE USER

- Upon delivery, inspect whether:
 - what was agreed has been delivered;
 - the brand and the method of marking is correct;
 - the delivery note contains all information.
- If you decide to reject the product on the basis of the above, please contact the certificate holder and, if necessary, SKG-IKOB.
- Observe the stated application conditions.
- The means of proof (delivery note and certificate) must be handed over to the client. This does not apply to deliveries to natural persons other than in the exercise of a profession or business.
- The client must keep the evidence (delivery note and certificate) available for inspection by the competent authority for at least 5 years. This does not apply to deliveries to natural persons other than in the exercise of a profession or business.

3. LIST OF DOCUMENTS REFERRED TO
