the Crest portfolio of high quality clay facing bricks

crest

Inspirational design created using award winning bricks designed by Crest

Images courtesy of Photographer Alex Campbell

One of Crest Building Products most popular bricks, the **Kingston Weathered Gault**, was chosen to create an amazing State-of-the-art secondary educational facility at Melksham Oak Community School located within the historic town of Melksham.

The Kingston Weathered Gault is a unique brick designed by the Crest Team to reflect a heritage-reclaimed style of brick, it is a lovely blend of buff bricks with smoke-grey hues and white highlights.

As specialists in creating educational spaces, this inspiring design created by **Footprint Architects**, takes into consideration the

Georgian architecture of the area. Other key factors considered, where sustainability, high levels of insulation, natural ventilation and the importance of light and connections to nature. The build creates an atmosphere to prepare students for future learning and personal development.

To find out how Crest can help transform your project into something exceptional or to order free brick samples, please call us on:

Welcome to Crest

Whether you are an architect, developer, merchant, builder or looking to self-build, we are confident that from our extensive product portfolio, you will be able to make the ideal selection of core building products from our superb range of bricks, roofing tiles and PV integrated solar system all designed to compliment and enhance any development.

Established over thirty years ago, Crest is a successful company run by a team of professionals who are engrained in the industry and who have a passion for what they do. We are always pleased to share this knowledge and experience with our customers. We make customer satisfaction our utmost priority, hence you can be assured of a high level of customer service.

With all orders, we can offer a fast and efficient nationwide distribution service to all corners of the British Isles.

Within this brick brochure, you will find over 200 types of clay-facing bricks. In addition to what is shown here, we also have a diverse range of specialist & architectural brick types together with our expert matching and bespoke brick services.

We are one of the UK's leading suppliers of high-quality roofing products. Whether looking to replace your existing roof tiles or in search of a beautiful option for a new build, our range is certain to offer you the perfect solution, with each tile carefully crafted to match various building types and environments.

Should you not find what you are looking for here or on our website or you just require a little more information and advice, then please do not hesitate to **contact us on 01430 432667**. You are also welcome to visit our showroom where you can see our inspiring range of Bricks, and Roofing Tiles plus our integrated PV Solar Tiles first-hand.

Thanks for considering Crest, we hope that we can be of service to you.

You can view even more of our brick range on our Crest website at www.crest-bst.co.uk Here you will find technical specifications, images and info cards for each brick.

If you have a mobile device handy you can scan the 'QR' code opposite and this will take you directly to the bricks section of our site. From here simply click on any brick and this will take you to a dedicated brick product page.

From over 200 brick styles to choose from. . .

RECLAIMED BRICKS

Crest's New Collection of Reclaimed Bricks

Crest is delighted to supply a range of reclaimed bricks to their brick collection. The new range offers a selection of buff, rustic reds and grey bricks with some lighter features to selected bricks with a variation of different textures to the surface. These bricks have bags of character, whether you're restoring a historical building, constructing a rustic façade, or seeking to add a sense of heritage to your contemporary design our reclaimed bricks offer a perfect alternative.

These versatile bricks can be used for a range of applications, from accent walls and fireplaces to outdoor landscaping and interior design. Each brick is expertly cleaned and treated to ensure durability and longevity, allowing them to withstand the test of time once again.

Sizes are approx. 220mm x 100mm x 60mm (variable) our warehouse team will be happy to send out samples.

50mm Brick Collection

Create desirable lines with Crest 50mm format bricks

Here at Crest we have a wide selection of 50mm bricks available. In fact the majority of our whole brick portfolio are available in both 65mm and 50mm. We have an extensive range of over 100 types of 50mm bricks in a wide range of textures, colours and finishes. These are ideal for both modern and traditional styles, so we are confident we'll have something to suit your build project.

WELCOME TO THE WORLD OF
CREST LINEA...OUR PORTFOLIO
OF STYLISH AND ELEGANT LONG
FORMAT STYLE BRICKS.

THE LENGTHS WE GO TO

Linea is an exclusive range of bricks that brings something very different to a project. Our stunning collection is now available in a variety of colours and finishes.

These beautiful long format bricks are just one example of the kind of **'special architectural design'** bricks that we supply. If you require something a little different we can provide the ideas and the solution.

A NEW LINE IN ARCHITECTURE

The longer, thinner brick creates a dramatic and elongated effect which accentuates the linearity of the facade.
